Get to Know Phenom Resources

Phenom Resources Ltd. is a Canadian-based mining company focused on the exploration and development of mineral properties. The company's primary focus is on vanadium and gold projects in Nevada

MISSION AND VISION

Phenom Resources aims to discover and develop mineral resources that are essential for a sustainable and technologically advanced future. The company is driven to creating value for its shareholders through responsible exploration and development practices.

Phenom Resources envisions becoming a leading North American producer of vanadium, contributing to the growth of green energy technologies and infrastructure development. The company also seeks to make a significant gold discovery guided by renowned and accomplished gold deposit finder Dave Mathewson

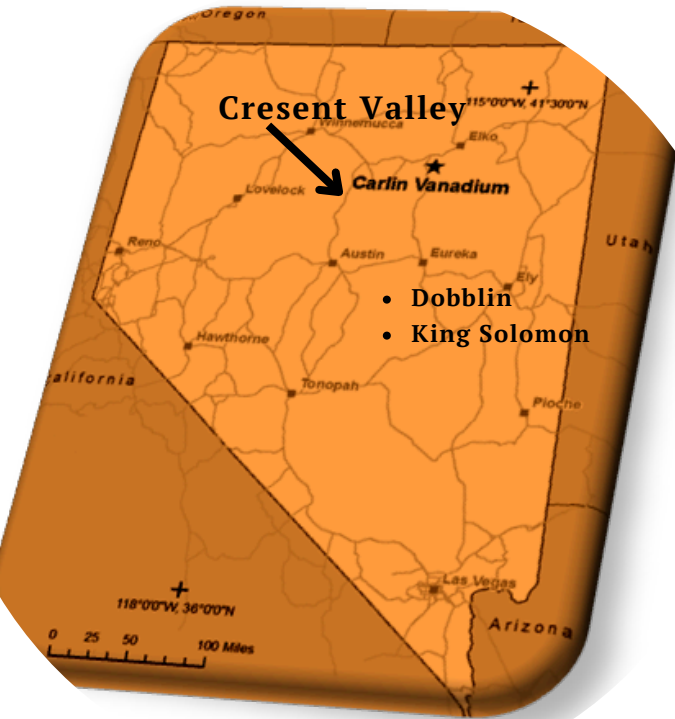

KEY PROJECTS

1. CARLIN VANADIUM PROJECT:

- Location: Nevada, USA
- Focus: Vanadium
- Significance: This project is located in the Carlin Gold Trend, known for its rich mineral deposits. The Carlin Vanadium Project is one of North America's largest and highest-grade primary vanadium deposits.
- Current Status: Advanced exploration stage with significant drilling and metallurgical studies completed. The project aims to address the growing demand for vanadium, especially in energy storage applications.

NEVADA GOLD PORTFOLIO

- Selectively only regional scale (big) gold systems
- Carlin-type targets at Carlin, Dobbin and King Solomon
- Bonanza-type target at Crescent Valley
- Projects hand-picked and led by Dave Matheson who has spend over 40 years exploring in Nevada, has found 6 gold deposits with over 8 million ounces of gold and a major contributor to developments on the famous and prolific Carlin Gold Trend

“

Future Vision

Phenom Resources Corp. envisions becoming a leading North American producer of vanadium, contributing significantly to the green energy and technology sectors. The company aims to advance its key projects, particularly the Carlin Gold Vanadium, Dobbin, King Solomon, and Crescent Valley, through innovative exploration and sustainable mining practices. By leveraging deep industry experience with results, cutting-edge technologies and maintaining a commitment to environmental stewardship and community engagement, Phenom Resources seeks to create long-term value for its stakeholders and drive progress in the sustainable development of critical mineral resources

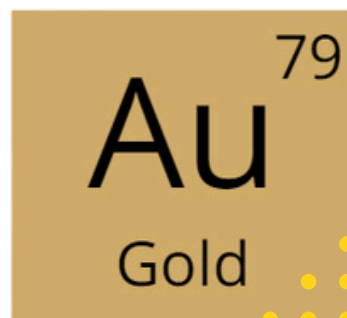

PAUL COWLEY

Paul Cowley's journey from geologist to CEO epitomizes passion, dedication, and unwavering commitment to excellence.

PHENOM
RESOURCES

PRESIDENT & CEO, DIRECTOR

As he leads Phenom Resources into a new era of success, Paul's strategic vision and leadership inspire confidence and set the stage for a prosperous future in the mining industry.

Invest in Phenom Resources

The company holds a 100% stake in the largest and highest-grade primary vanadium resource in North America. The potential for uncovering high-grade gold deposits akin to Carlin-style at Carlin, King Solomon and Dobbin, and Bonanza-style at Crescent Valley, is substantial. With a track record of discovering gold deposits, the team is committed to identifying the next significant find. Led by accomplished mine finder, Dave Mathewson
