# Championing Mineral Exploration, Development & Public Education on Minerals

**Sean Kingsley**  
**President & CEO of Gold Hunter Resources**

From the vibrant streets of Vancouver, Sean Kingsley stands not just as an expert in mineral exploration and development but as a proud fourth-generation Chinese-Canadian, deeply rooted in a family legacy of resilience, determination, and community-building. Descending from Rev. Chan Yu Tan, who provided spiritual guidance to Chinese laborers in the railway and gold mines in the late 1800s, Sean has passionately championed the mining sector for over 16 years. He consistently emphasizes the pivotal role of metals and minerals in our everyday lives.

Serving as the CEO of Gold Hunter Resources (CSE: HUNT)

and having leadership stints in numerous mining entities, Sean's acumen spans corporate communications, global capital ventures, and investor relations. His contributions to the Association for Mineral Exploration (AME) and the Centre of Training Excellence in Mining Council are testament to his unwavering commitment to British Columbia's mineral exploration community.

In 2013, Sean brought to life the "Mining 4 Beer" networking event in Vancouver, an initiative he continues to host. This monthly assembly draws up to 150 industry professionals, illustrating his unmatched ability to foster community connections and share industry insights.

Beyond the realm of mining, Sean's collaborative spirit and innovative flair were distinctly evident during the pandemic. Under his leadership, his Church underwent a transformative digital evolution, adopting state-of-the-art online platforms that brought together a global congregation in their spiritual journey. In addition, Sean generously offers his time and expertise to the Vancouver Club, one of the city's most venerable private institutions.

As a leader in resource-focused companies, initiator of pivotal industry events, and digital transformation pioneer, Sean Kingsley is more than an industry stalwart. He is a beacon that illuminates the invaluable contributions of the mining sector to modern society, all while exemplifying the essence of community and rich cultural heritage.

MINERAL  
ABUNDANCE

Known for its abundant mineral deposits, especially copper, zinc, gold, and asbestos

HISTORICAL  
SIGNIFICANCE

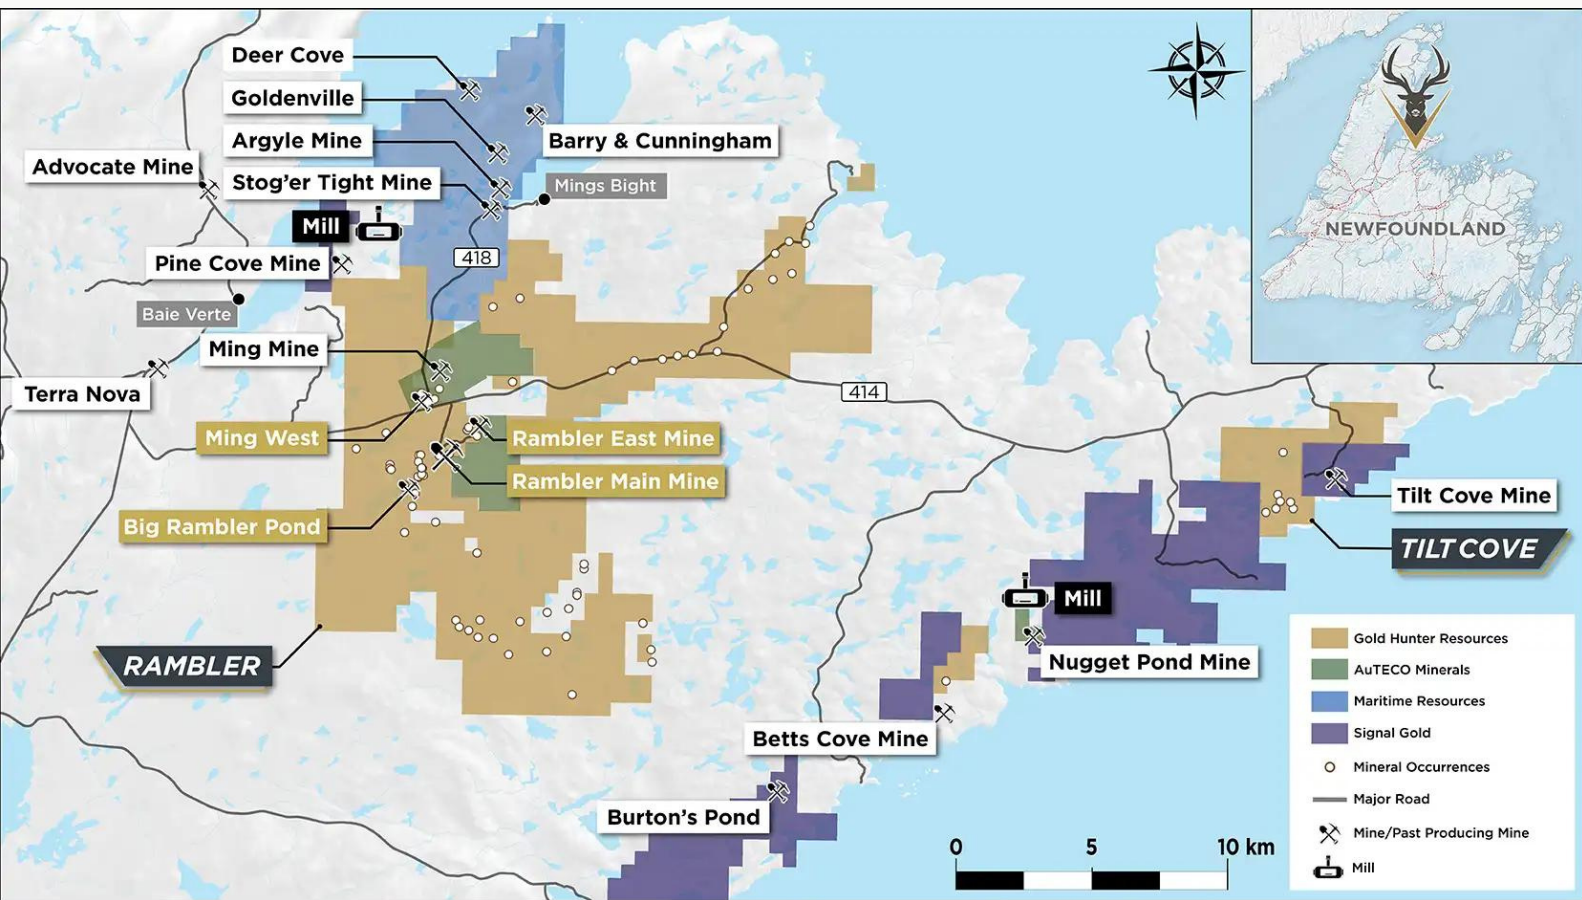

Since the 1870s, mining on the Baie Verte Peninsula has played a vital economic role in Newfoundland.

CURRENT  
OPERATIONS

The peninsula hosts active mining and exploration projects, with its abundant geological potential attracting investment.

**Location**

17,000 hectares in Newfoundland & Major Mining Hub

**Infrastructure**

Paved highways, access roads, on-site power

**Neighbourhood:**

Positioned between two active mine mills

**Support**

Backed by government and community

**Proximity**

Adjacent to Ming Mine

**Value**

Ming Mine bought for \$65M AUD in August 2023

#### Expansion

Neighboring a 40,000m drill campaign

#### Location

Encircling the Ming Mine

#### History

4 past-producing areas, including Ming West and Rambler Main Mine

#### Quality

High-grade copper & amp and gold throughout

#### Surface Grades

Copper between 3-30% & up to 26 g/t gold

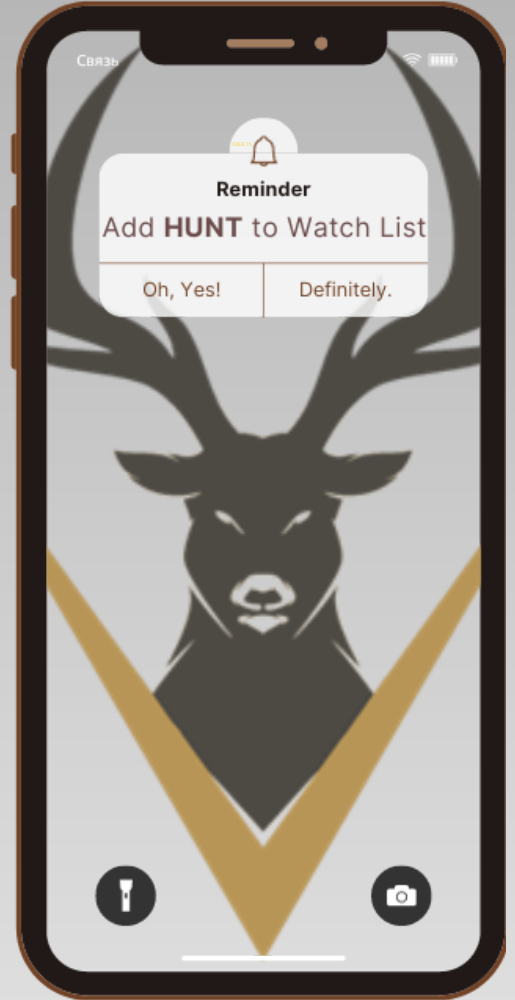

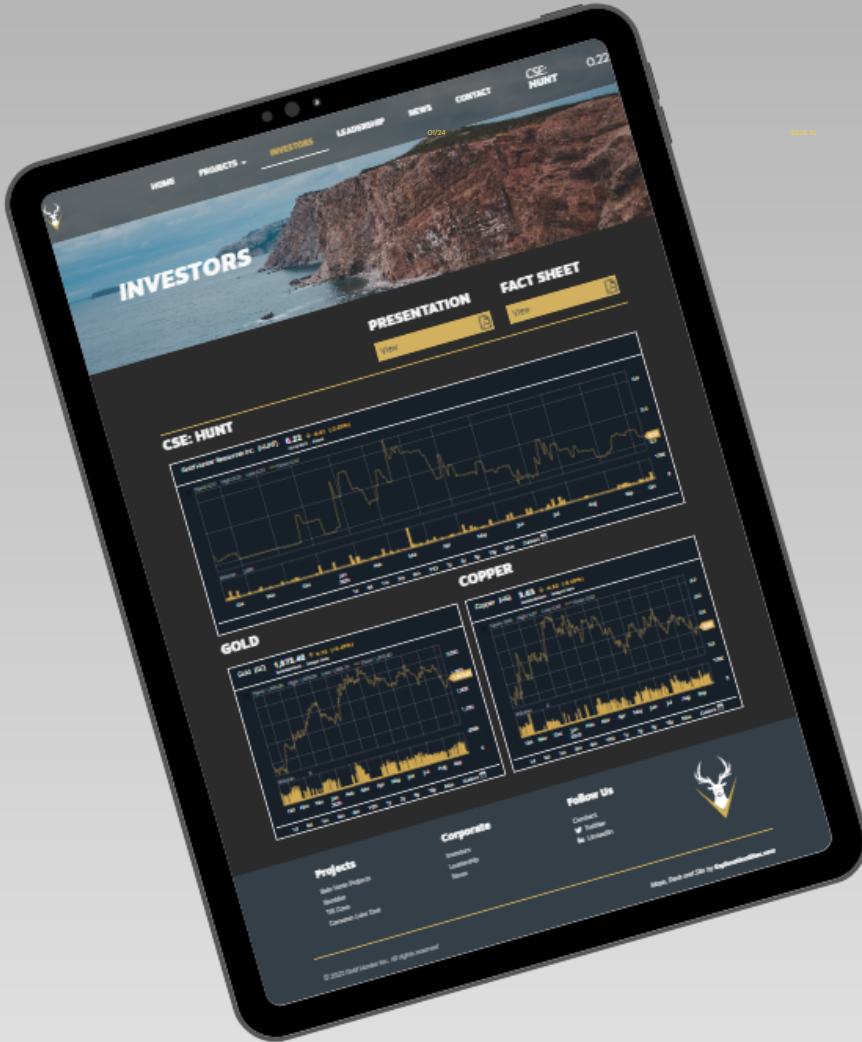

#### Outlook

Untested high-grade mineral occurrences with vast potential for additional discoveries

**GOLD HUNTER**  
RESOURCES INC

**Gold Hunter is at the vanguard of mineral exploration in Newfoundland. They control an expansive 17,000-hectare project that nearly envelopes the Ming Mine, a site recently acquired by AuTECO Minerals for a notable \$65M AUD in September 2023. Following the acquisition, AuTECO promptly announced a rigorous 40,000-metre drilling program adjacent to Gold Hunter's holdings. Within Gold Hunter's project boundaries lie four sites with a history of operation, manifesting significant mineral activity throughout. Highlights include surface copper grades that vary between 3-30% and historic drilling results showcasing up to 28m at 9 g/t equivalent gold. Gold Hunter's pioneering efforts led them to be the first to amalgamate a majority of the mining territories within the Baie Verte Peninsula.**

**For discerning investors, 'HUNT' stands as a beacon of opportunity and potential, deserving prime placement on investment radars.**
